Human Nutrition and Dietetics at the University of Arkansas is a rapidly growing area of study. The U of A’s School of Human Environmental Sciences and the Human Nutrition and Dietetics area are both nationally accredited programs. Let us show you what the University of Arkansas has to offer!

CAREER OPPORTUNITIES IN DIETETICS
• Clinical Dietician
• Sports Nutrition
• Public Health Nutritionist
• Food Product Development
• Corporate Nutritionist
• Pharmaceutical Sales
• Research Specialist

PERSONAL ATTENTION
Upon being enrolled as a student in the School of Human Environmental Sciences, you will be assigned to an advisor who will help you chart your classes for your entire college career. Also, your dietetics and foods-related classes tend to be smaller, reinforcing the importance of one-on-one time and interaction between you and your teachers.

SPECIALIZED COURSES
• Medical Nutrition Therapy
• Experimental Foods
• Advanced Nutrition
• Food Systems Management
• Sports Nutrition
• Purchasing and Cost Control
• Communication in Nutrition and Dietetics

A RESEARCH UNIVERSITY
The U of A is a nationally competitive student-centered research university serving Arkansas and the world. Research within the Human Nutrition and Dietetics program at the U of A can be a great opportunity for hands-on learning in a lab setting. Visit our website for more information about prospective research.

NATIONAL ACCREDITATION
The Didactic Program in Dietetics has been part of the School of Human Environmental Sciences since the 1950’s and is accredited through ACEND (the Accreditation Council for Education in Nutrition and Dietetics).
